

Product Change Notice: #VE20210621

Date: June 21, 2021

RE: End-of-Life for MI-260-IY, MI-260-MY, and MI-RC601L-IYWY

To Our Valued Customer:

We appreciate your use of Vicor products. The purpose of this notice is to make you aware that Vicor will be discontinuing the 50W MI-260 Series Modules along with the MI-RC601L-IYWY. Instead customers may substitute the 75W versions.

Products Affected	Recommended Alternatives
MI-260-IY	MI-260-IX
MI-260-MY	MI-260-MX
MI-RC601L-IYWY	MI-RC601L-IXWY

Reason for the change:

This End-of-life is due to a need for extensive power train update, unique to this model, which would result in a full product redesign. As a result, given the similarities we suggest customers substitute the 75W version parts instead.

Schedule:

The 50W MI-260 Series Modules and the MI-RC601L-IYWY will be discontinued immediately. Customer should begin using the recommended 75W alternatives listed above.

Actions Required:

Customers should make note of the change and contact Applications Engineering with any questions relating to possible alternate product recommendations.

Company contact for technical questions:
